CAREER OBJECTIVE

Frontend developer experienced in building modern web and mobile applications using Next.js, React, and React Native. Passionate about writing clean, maintainable code and delivering scalable, user-friendly solutions.

SKILLS

Frontend : NextJs, React, React Native, Expo, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS

Backend : Node.js, Express.js, MongoDB, REST APIs

Tools : Visual Studio Code, Github, Postman

Soft Skills : Fast Learner, Hardworking, Problem-Solving

EXPERIENCE

Oodaktar - Frontend App/Web Developer (April 2025 - Present)

- Developed frontend features for Patient and Assistant mobile applications using React Native and Expo.
- Designed and built the complete Doctor Dashboard web application using Next.js.
- Implemented the full Prescription Management System frontend, including dynamic forms, patient data handling, and API integration.
- Collaborated closely with the backend team to integrate and test REST APIs across all mobile and web modules.
- Translated Figma designs into pixel-perfect, responsive user interfaces for both web and mobile platforms.

Nexlent - Frontend Developer Intern (December 2024 - February 2025)

- Worked on frontend features using Nextjs and TypeScript.
- Fixed UI bugs and improved responsive layouts.

PROJECTS

EduMosaic – An educational management platform [Frontend GitHub](#) | [Backend GitHub](#) | [Live Link](#)

Key Features:

- Developed a platform for institutions to manage classes, enrollments, and feedback efficiently.
- Implemented dashboards for class management, roles, progress tracking, and secure payments.
- Enhanced engagement with responsive design and secure authentication for a seamless experience.

Technology Stack: React, JavaScript, Node.js, Express.js, MongoDB, Firebase, JWT, TanStack Query, Tailwind.

QueryNest – An alternative product information system [Frontend GitHub](#) | [Backend GitHub](#) | [Live Link](#)

Key Features:

- Developed an alternative product information system for posting, modifying, and removing product queries.
- Users can recommend, manage recommendations, and save queries to favorites on the platform.
- Implemented search functionality, theme toggling, and dynamic grids for enhanced user experience.

Technology Stack: React, JavaScript, Node.js, Express.js, MongoDB, Firebase, JWT, Tailwind, HTML, CSS.

Travel Trails - A Tourism Management Website [Frontend GitHub](#) | [Backend GitHub](#) | [Live Link](#)

Key Features:

- Developed a user-friendly tourism website focused on Southeast Asia, featuring famous spots.
- User can post and manage their posted spots by updating or removing the spots information.
- Implemented secure authentication and profile management using Firebase for personalized experiences.

Technology Stack: React, JavaScript, MongoDB, Firebase, Tailwind, HTML, CSS.

EDUCATION

Bachelor of Science in Computer Science Engineering

Daffodil International University, Dhaka, Bangladesh

January, 2020 – February, 2024

CGPA: 3.83 (out of 4.00)

PROFESSIONAL COURSES

Certification of successful completion of the [Complete Web Development](#) course by Programming Hero.
